

WOMAN SUFFRAGE GIVEN KNOCK-OUT BY THE SENATORS

Vote on Ashurst Resolution for Suffrage Amendment stood 35 to 34—Two-Thirds Vote Required.

SENATORS FROM SOUTH OPPOSED RESOLUTION

Vardaman Resolution to Repeal 15th Amendment Was Voted Down, 48 to 19. What Women Say.

Washington, March 19.—Women suffrage advocates today lost their fight in the United States senate for a resolution proposing an amendment to the federal constitution giving women the ballot. The vote was 35 for the measure to 34 against it, a two-thirds affirmative vote being necessary for passage, and when it was over, suffrage leaders jubilantly pointed to the majority of one as conclusive proof that their cause had scored a triumph in defeat, and was immeasurably stronger than its opponents ever had been willing to concede.

Vote After Long Debate.

Today's action, following weeks of debate on the floor of the senate, during which many leaders of the suffrage movement placed for postponement of the final vote, marked the climax of a spirited campaign launched here the day before the inauguration of President Wilson.

Immediately after the vote, Senator Sharkey, of Colorado, sought to introduce a new resolution for constitutional amendment, but it was defeated by a vote of 35 to 34. The senate went into executive session before adjournment, and the resolution will be offered later.

The resolution defeated today was the first introduced in the present congress. It was proposed by Senator Chandler, of Oregon, and the women suffrage committee later authorized Senator Ashurst to report it favorably.

Senators Opposed. Though the vote itself was not unexpected, the southern senators, all democrats, lined up almost solidly against the measure. They contended it would complicate the reconstruction question in the south, and that it would be a violation of the constitution. Only Senators Randall of Louisiana, Sheppard of Texas, and Lea of Tennessee, voted for the resolution.

Senator Vardaman led a movement to amend the resolution so that it would not be applied to the states in the south to repeal the fifteenth amendment to the constitution, but this amendment was defeated, 48 to 19.

The vote was preceded by a three-hour debate on the resolution, during which the women suffrage advocates, led by Senator Chandler, of Oregon, and the women suffrage committee later authorized Senator Ashurst to report it favorably.

DEATH IN THE CHAIR PREFERRED BY BOY TO TERM IN PRISON

New York, March 19.—"I would rather go to the electric chair than spend twenty years in prison," said 19-year-old Harry Schaeffer, in the supreme court today, when his parents urged him to plead guilty in the second degree at his trial on the charge of first degree murder for the killing of William T. Martin, a Toronto, Canada, milliner, last August.

Schaeffer testified that he and an accomplice, still a fugitive, tied a towel around their victim's head for the purpose of smothering his cries, but that they did not intend to kill him. The boy, conscience stricken, surrendered recently in St. Louis.

START CLAYTON BOOM FOR MAYOR

The Suggestion Is Made at Meeting of Charter Reform Committee of the Council.

What city politicians regard as a lusty mayoralty boom in the interest of Captain R. M. Clayton, for more than 30 years chief of Atlanta's engineering force, was hinted at by the friends yesterday.

Captain Clayton's term as chief of construction expires next year. He has been in the city for many years, and his name has been mentioned in connection with the office of chief of construction.

During the discussion of the proposition to amend the charter, it was suggested that Clayton should be considered for the office of chief of construction.

Alderman Albert Thomson made the statement that the people are dissatisfied with the present chief of construction, and he suggested that Clayton should be considered for the office.

CRIME IN FACTORY FOULEST HE EVER KNEW, SAYS BURNS

Thinks Killing Was Product of a Mind Steeped in Crime—He Is Confident of Success.

LETTER FROM BECKER TO THE CONSTITUTION

Former Master Mechanic Throws New Light on the Death Notes Found in the Factory Basement.

"The slayer of Mary Phagan was a criminal of the worst type. I have never come in contact with a tragedy so horrible. It is a simple matter. My investigation has been an easy one, and is growing easier as it progresses. It has merely meant following the trend of the criminal mind. This process, to a man of my long experience with criminals, is no difficult matter."

This assertion was made by Detective William J. Burns Thursday afternoon to a reporter for The Constitution, who talked with him in the office of Attorney Leonard J. Hess, to which the noted sleuth had repaired for a brief respite from his "vigorous activities" during the forenoon.

"Furthermore, I see my way perfectly clear to point my finger at the guilty company before I am done. My investigation has been an easy one, and is growing easier as it progresses. It has merely meant following the trend of the criminal mind. This process, to a man of my long experience with criminals, is no difficult matter."

"Throughout this murder there can plainly be seen the thread of the criminal's mental process. It is certainly a simple thing to detect. Simple, I mean, in a sane and normal investigation after the hysteria that always follows such a crime have died away."

Letter from Becker. A letter from Henry F. Becker, of Irvington, N. J., the pencil factory employee who made a Frank's defense, to be written on the part of the murder notes found by Mary Phagan's body, has been received by The Constitution. It throws new light on the death note phase of the mystery.

"Editor Constitution: Just a few lines in reference to Los Frank's defense. I would like to make a Frank's defense, to be written on the part of the murder notes found by Mary Phagan's body, has been received by The Constitution. It throws new light on the death note phase of the mystery."

he intended conferring with Solicitor General Hugh M. Dorey and with the detective at police headquarters. It was in his answer to this question that the detective made the interesting assertion that Dorey had likely been misled in Frank's prosecution.

"But it was by private detective."
Bums declared. "The average private detective is one of the most disloyal men with which we have to contend. If we take it for granted that Dorey was misled in the Frank case, I frankly believe he is the kind of man who will set about at once to rectify the wrong he has done."

"Dorey was not prejudiced. Although I do not know him, I understand him to be an entirely different type of man. He believed that what action he took was right, and that it was founded on justifiable basis. He might have been saloon-let that was granted—our country would be in a bad fix if we did not have public prosecutors who took up their duty with zeal and spirit."

"If Leo Frank is guilty of the murder of Mary Phagan, he should hang. Whoever is guilty should hang. I feel that way, and Dorey felt that way. Dorey believed he was guilty. Dorey was furnished with substance that tended conclusively to show that Frank was guilty. Dorey did not molest that substance. It was collected by others and put in his hands."

Convicting Result.
"For this reason: I will have results that will convince them all. I am thoroughly satisfied of that. Even at this early day, I am prepared to do no little amount of convincing. And, when I am near the finishing point, I will turn my data over to the solicitor general and he may act as he sees fit upon it."

In keeping with Bums' theory that a criminal mind had produced the murder of Mary Phagan, the reporter put this question:
"Could a man of high intellectual capacity and culture be capable of the crime?"

The detective smiled non-committally, answering readily:
"That I would prefer not to say."
"Then, do you think that the murder was committed through savage instinct and nature?"

"Neither would I answer that or present."

Bums would not say who was or the

factory.

Debate by Law Students.
After a hotly contested debate on the question of whether or not Frank should be hanged, the law students of the Atlanta University decided Thursday that he should not hang. The debate was held in the law building, and was presided over by the dean of the law school, Mr. J. H. Pugh. The students were divided into two teams, one in favor of hanging and one against. The debate was a very interesting one, and the students showed a high degree of scholarship and ability.

other whether or not he had formed any opinion or theory of the crime, or whether he had set upon any particular suspect.

"Even if I had formed an opinion or theory," he said, "I would not be proper for me to discuss it at this time."

He was unable to give any definite idea of the length of his investigation. He may last for many days further, he stated, and may not be necessarily so long.

Dorey's Attitude.
The attitude of Solicitor Dorey toward the Bums investigation still remains a mystery. He will have nothing to say for publication. He was asked the question point-blank: "Will you co-operate with Bums?"

"I am merely silent on the subject," he said, "and making progress. I am merely silent on the subject."

Night Trip to Faneburg.
Detective Bums, accompanied by Leonard Haas and others associated with Frank's defense, was seen leaving the city last night in the National Faneburg building on Forsyth street. The doors were locked upon their entrance, and none others were admitted.

It is said, although not verified, that the noted sleuth went over the station house to see the second floor, where the body was discovered.

Immediately after 5 o'clock, he returned to the Georgian Terrace from the penitentiary building. Bums was seen communicating with a person in the building, who was not identified.

He had gone there merely to follow up on the case, and to examine the scene upon the theory of the prosecution.

Whether or not new clues had prompted the journey to the factory building, Bums would not say. He believed, however, that he had discovered some new evidence.

His trip to the plant building last night was the first since he was arrested. He expects to make other trips to the factory.

WHITE HOUSE BACKING GOOD ROADS MEASURE

President Wilson is for the Shackelford Bill With Certain Changes.

Washington, March 19.—Good roads legislation at this session of congress was confidently predicted today when it became known after conferences at the white house between President Wilson and Senator Sherman, of Virginia, and Secretary of Agriculture Houston, that the president would support the Shackelford road bill if certain modifications were made in it by the senate.

Just what changes will be made is not known, but it is believed one will provide a \$2,000,000 appropriation for road improvements and construction work this year. As passed by the house the bill would authorize an expenditure of \$10,000,000 in the next year, and the number of miles of post roads, with the stipulation that each state should contribute its share.

The president today told callers that the Mexican situation was not a simple one, and that it would require a long time to resolve it. He said that he was confident that the Mexican situation would be resolved in a satisfactory manner.

DEPRIVED OF BEARD, LOUISIANA LAWYER SEEKS ONLY \$60,000
Washington, March 19.—What is the value of a beard? That is the novel question which the learned justices of the supreme court have been asked to decide in the case of a Louisiana lawyer, who has been deprived of his beard, and is seeking only \$60,000 for his expenses.

He was unable to give any definite idea of the length of his investigation. He may last for many days further, he stated, and may not be necessarily so long.

COTTON EXCHANGE'S PLAY SHELL GAME

So Southerners Charge in Urging the Grading Bill. Senators Smith and West Both Favor the Measure.

Washington, March 19.—Notice was served on the senate today by Senator Smith, of South Carolina, that he would ask tomorrow for passage of the cotton grading bill, and quotations of Tuesday from the New York Cotton Exchange, which showed a decline in cotton from March 19 to July 1, and that it was only by manipulation of the grading of cotton to be delivered that the exchange could afford to sell July cotton for less than March cotton.

On stand the people of the south in their right against cotton manipulation. The exchange is a monopoly, and it is a shame that it should be allowed to manipulate the cotton market. The exchange is a monopoly, and it is a shame that it should be allowed to manipulate the cotton market.

LOBBY SEEKS TO SAVE CONVICT MADE GOODS

Fund of \$50,000 Charged to
Defeat Hughes Measure.
Prison Warden Involved.

Washington, March 19.—Allegations that a fund of \$50,000 had been raised in the interest of prison contractors to defeat the Hughes bill to regulate and restrict the interstate transportation of convict-made goods will be investigated tomorrow by the senate lobby committee.

Overman, chairman of the lobby committee, was informed by Senator Hughes that a fund of \$50,000 had been raised to defeat the measure. Hughes said that a \$25,000 fund to fight the bill had been raised, following the introduction of the measure last summer.

Two subpoenas were issued today by Senator Overman's order. One was for Edward Boyle, a Chicago lawyer, formerly treasurer of the National Conference of Charities and Corrections, who also has represented the labor committee of the house. Boyle stated he was engaged in prison reform work, but that he also was in the employ of a Chicago shirt manufacturer. Boyle is now in Washington and has attended the hearings on the Hughes bill.

Dr. E. Stagg Walton, of New York, an instructor at Columbia university, secretary of the New York prison reform commission, and chairman of the

national conference on prison labor, who is a staunch supporter of the Hughes bill, also has been subpoenaed. Charges that an organized lobby is at work against the measure were made by Senator Hughes.

Similar Bills Blocked.

Champions of the pending legislation asserted that the Hughes bill was a measure to protect the public interest. Four times such a bill has been introduced in the senate, but each time it was defeated. The bill was introduced in the senate in 1904, when it was defeated by a vote of 45 to 35. It was reintroduced in 1908, 1910 and 1912, but each time it was defeated.

The bill had passed the house according to information given by Senator Hughes. It was introduced in the house in 1904, and passed by a vote of 219 to 191. It was reintroduced in 1908, 1910 and 1912, but each time it was defeated.

Wide Primary in Platform.
Shively Renominated.

Indianapolis, Ind., March 19.—With little friction, a complete ticket, excepting candidates for governor and lieutenant governor, but including a candidate for United States senator, was nominated and a platform, which declared for a state-wide direct primary law, was adopted by Indiana democrats in state convention here today.

All nominations, except candidates for state treasurer and attorney general, were chosen on the first ballot. It required eight ballots, occupying more than five hours, to select George A. Butler, of Fort Wayne, as the nominee for treasurer, and two ballots to select Richard H. Milburn, of Jasper, as the party's choice for attorney general. There were seven candidates for the nomination of treasurer of state.

Heavy Fall in Tennessee and
Other States—Good Sleigh-
ing in Nashville.

Nashville, Tenn., March 19.—The tin-can blizzard of snow which followed the fall here today and tonight of four and a half inches of snow, which the weather bureau says is the heaviest in Nashville since February 11, 1913. A blinding snowstorm began at 2:30 o'clock this morning and lasted through the afternoon and night.

Snow fell today throughout Tennessee and northern Alabama. In most sections only light flurries were experienced, but Stevenson, Ala., near the Tennessee line, reported four inches. Much lower temperatures accompanied the storm.

In Nashville and practically all other sections of the state except the mountainous region of eastern Tennessee snow fell intermittently during the greater part of the day.

ATLANTA MERCHANTS FAVORED BY GRIFFITH

Recommends to War Department
That Post Supplies
Be Bought in Atlanta.

One of the last official acts of Colonel Griffith, commanding the Seventh Infantry, at Fort McPherson, before he boarded the train for the Mexican border, where he and his troops will be placed on patrol duty, was a recommendation to the war department at Washington that the right to purchase the commissary supplies of Fort McPherson from Atlanta merchants rather than through the division headquarters at Governors Island, N. Y., be restored.

Colonel Griffith and Captain Bankhead, of the local post, explained to Secretary W. H. Leahy, of the industrial and statistical bureau of the Atlanta Chamber of Commerce, and to Chairman Lynn Fort, of the chamber's wholesale trade committee, who called at the fort representing the committee, that the matter of purchasing supplies in Atlanta could not be left within their discretion, but that these purchases must be made by the head of the division in New York.

Both expressed themselves as being desirous that the supplies should be purchased in Atlanta as heretofore. Their reasons were that the purchases locally would not only be of benefit to Atlanta, of which they are both citizens, but would also greatly facilitate the business of the commissary department at the post.

Secretary Leahy and Chairman Fort were greatly pleased at the cordiality and the sincerity with which post officials offered the co-operation.

SEEK RENT OF HOUSE IN RED LIGHT DISTRICT

An echo of the former existence of Atlanta's "red light district" came to light on Thursday in municipal court when a suit was filed by A. F. and Myra Chisholm, against James F. Eason, in which the Chisholms seek to recover \$200 rental alleged by them to be due from Lynch for the rental of certain property at 115 Halsey street.

Harry T. Moore Addresses Ad Men's Club of Atlanta At Luncheon on Thursday

One of the most interesting luncheons takes yet given by invited guests before the Ad Men's club, of Atlanta, at the Thursday gathering at the Hotel Ansley, was delivered by H. T. Moore, secretary of the Atlanta freight bureau, yesterday noon.

Mr. Moore spoke to about seventy-five members of the club. In part, he said:

"Strategically situated, Atlanta was destined by nature to become a city of great commercial importance. So situated, and favored with a delightful climate, Atlanta soon attracted to itself an energetic people who have pushed to the utmost every natural advantage and with increasing power and force have brought to a remarkably low level the freight rates to and from Atlanta."

"The business interests have used this line serving the same markets and have themselves built and helped to build railroad lines into and out of Atlanta, and have brought to bear all the pressure in their power on the lines of the state to force freight rates to an abnormally low basis. Competition has been reduced to a minimum and carriers and markets in the great volume of business moving into and out of Atlanta."

In a carefully prepared paper, Mr. Moore reviewed the growth of the railroad business in and about Atlanta and gave figures which showed the increase in freight rates secured by the carriers, at the Ad Men's luncheon.

Julian Smith, one of the best known business men in Atlanta, who presided at the luncheon, delivered an address on the "Motion Picture Business." The talk will be illustrated with moving picture films showing how movies are made.

Among the honor guests at the Ad Men's luncheon were J. H. Moore, of the Stockard & Louisville, Ky., manager of the Menzies Advertising agency in that city.

Investigate Charge That Thomason Is Working for County

According to charges brought to the attention of Vice Chairman Winn, of the board of county commissioners, late Thursday, Philip Walther, secretary of the prison commission, recently discharged from the county force, when indicted for cruelty to prisoners, is again at work as overseer on the county roads.

Commissioner Winn declared that it was the policy of the board of county commissioners to have no such case as the case he was not aware of. He said that the board of county commissioners would state that the county pay roll has not yet been made out for the month of March.

The county pay roll has not yet been made out for the month of March. The records fail to disclose whether the county has paid for the month of March.

An investigation of the matter is being made and will be probably through the attention of the public works committee of the county commission at its next meeting.

Ed Bonaldson, superintendent of construction for the county, declared that the records show that the county has paid for the month of March.

He said that he would make an immediate investigation.

Can Policemen Take Away Anything Found if They Have a Search Warrant?

The question of whether or no city officers can come before the municipal court, secure search warrants and then proceed to take everything they find from a man's premises, when the search warrant only calls for the retention of one thing, will be threshed out in Judge L. Z. Rosser's criminal division of the municipal court on Friday afternoon.

The case to be tested is the one which involves city detectives who went to a residence recently, and while in the act of digging under the house for hidden money, turned up a complete outfit of the officers' uniforms, the fact that the officers took the case out of it, not contested from an ethical standpoint. Judge Rosser will attempt to ascertain whether or not the search warrant granted the officers by the court in the municipal court, the detectives could retain anything other than that listed in the search warrant.

Small Payment—Then \$1 a Week—"That's All"

Spring Cheer Awaits You Here

"The Best of the Best"

When you decide to get new Spring clothing, what is your first thought? Most people think "how much will it cost?" Then they compare the cost with the available cash to spare. Nearly always the result is something cheap, with a sort of getting-ready-for-the-rag-bag look.

Instead of saying, "How much will it cost?" wouldn't it be far better judgment to say "How long will it last?"

In other words, wouldn't it pay better to buy quality?

Now think how easy it is to buy quality clothing if you use Day's gradual payment plan. Why, if you would pay the amount you spend for cash on a cheap garment as first payment at

Day's

and even that much isn't necessary, you'd be able to pay the balance of the bill in thirty or sixty days and you'd get a garment of quality and lasting good appearance.

That's the very essence of economy. Get the benefit of "The best of the best" at Day's by using a simple, convenient charge account plan, open to everybody and arranged to suit any income. Day's credit is a dignified credit.

It's an Intelligent Man That Owns His Home

Then his intelligence ought to be used in the purchase of a home. A home is a man's most valuable possession. It is the place where he lives, where he raises his family, where he spends his money. It is the place where he wants to be comfortable and happy. It is the place where he wants to be safe and secure. It is the place where he wants to be proud.

When building a home, the home owner should be careful to get the most out of his money. He should get the best of the best. He should get the best of the best. He should get the best of the best.

Working most efficiently and at the least cost, the most durable and obtainable.

And that's the reason why the people cost but little more than the cheap grade.

Crackers and Naps Play
Eight Innings to a Tie;
Second of Series Today

By Dick Jemison.

Jackson, Lejos and company grabbed off a commanding lead in the first inning of the first game with the Crackers, at Ponce de Leon park, Thursday afternoon, then got excited and before they settled again the locals had turned a seeming force into a real ball game.

The teams struggled through eight innings in a mucky atmosphere, with Old Man J. about to spill the beans at any moment. At the conclusion of the Crackers' eighth inning, the visitors called for planning for the day and then O. J. said to the Crackers: "The count was ten to five."

As it was, the Crackers' eighth inning was a real battle, but it did not mean much to the Crackers, as they were not in the game. The Crackers' eighth inning was a real battle, but it did not mean much to the Crackers, as they were not in the game.

HART RELEASED
Tender Wanted His Former
Team Mate and Kavan-
naugh Agreed.

Little Rock, Ark., March 19.—President Kavanagh, of the Southern League, tonight announced the release of Empire William Hart to the National League.

Hart, a veteran pitcher of the National League, was a former team mate of President Kavanagh when the National League president was a base ball player. Today Mr. Kavanagh released an offer for purchase of Hart. Mr. Kavanagh tonight replied that the release would be granted unconditionally.

"I am sorry to lose Hart," said President Kavanagh. "He is an honor to the game, but I did not want to stand in the way of his advancement to a major league berth."

For the last two years as a major and minor league player, Hart joined the Little Rock team. He was a successful pitcher until the Little Rock team was sold to Chattanooga at the end of the 1912 season. He then joined the Chattanooga team and was a successful pitcher until he was sold to the Chattanooga team.

WOMEN CALL ON WILSON FOR INDEPENDENCE DAY

Suffragists Want First Saturday in May Established by President.

New York, March 19.—The National Woman Suffrage association appealed today to President Wilson to establish the first Saturday in May of each year as "Woman's Independence day." On behalf of the executive board of the association, President Anna Howard Shaw has addressed to President Wilson the following letter:

"The situation for the political enfranchisement of women has been carried forward without faltering, for nearly three score and ten years, along dignified and constitutional lines.

"Year after year one nation after another has recognized the justice of this democratic demand for self-government, and has granted to women citizens equal political rights with men, and in our own country at the next general election, women will vote in state constitutions granting suffrage to women in at least five states.

"The women of the United States are now in the midst of a great public demonstration throughout the nation, for the purpose of securing the passage of a constitutional amendment to the United States constitution so as to forbid the states to deny the vote to women on account of sex.

"The cause of woman's suffrage is no longer an abstract question, but one which has entered the very life of the nation, and the people are now called upon to decide whether they will support the cause of woman's suffrage or not.

"The women of the United States are now in the midst of a great public demonstration throughout the nation, for the purpose of securing the passage of a constitutional amendment to the United States constitution so as to forbid the states to deny the vote to women on account of sex.

A Second-Rate Mother Is Much Better Mother Than Best Institution

Albany, N. Y., March 19.—"A second-rate mother is a better mother than the very best institution," is one of the arguments contained in the preliminary findings of the state commission of relief for widowed mothers, filed with the legislature today in support of a bill to provide for state "allowances" for needy widows with children.

The commission asserts that widowed mothers have the right to claim from the state money with which to rear their children. The "allowance" required in the measure is described as "a salary granted to the mother by the state in return for which she undertakes to perform a certain part of child rearing."

Year after year one nation after another has recognized the justice of this democratic demand for self-government, and has granted to women citizens equal political rights with men, and in our own country at the next general election, women will vote in state constitutions granting suffrage to women in at least five states.

The women of the United States are now in the midst of a great public demonstration throughout the nation, for the purpose of securing the passage of a constitutional amendment to the United States constitution so as to forbid the states to deny the vote to women on account of sex.

The cause of woman's suffrage is no longer an abstract question, but one which has entered the very life of the nation, and the people are now called upon to decide whether they will support the cause of woman's suffrage or not.

WILSON IS INTERESTED IN RAILWAY SITUATION

President Willing to Help in Every Legislative Way to Bring Relief.

Washington, March 19.—President Wilson today manifested his deep interest in the financial condition of the railroads of the country, expressing a desire to help in every legislative way to bring them relief. The president had been asked by callers if he had heard any particular complaints from the railroads about their financial condition and remarked that he had heard that everybody was discussing the uncertainty of their position. He let it be known that the government was considering general facts of the continued increase in operating expenses.

The president revealed, too, that he was deeply concerned about the interstate commerce commission as a whole, he had talked with individual members on the subject. Mr. Wilson considered the question of whether or not the railroads would get the proposed relief bill passed, and he was sure that they would. He made it clear that this was his opinion, and that he was not expressing an opinion on the merits of the bill. He had been suggested to the president, according to his talks with callers, that the railroads might be interested in the new revenue bill, which was now being considered by the House. Mr. Wilson said that he had not heard of the new revenue bill, and that he was not sure if it would be passed. He said that he was not sure if it would be passed, and that he was not sure if it would be passed.

Why DECATUR

Keeps ON GROWING

DECATUR'S business concerns, Decatur's banks.

DECATUR'S schools, Decatur's population.

DECATUR'S taxable values, Decatur's churches.

DECATUR'S real estate values—all continue to grow—even during 1913 as before.

Why? On account of many things, such as its splendid waterworks and sewerage system, its educational facilities, its system of modern streets and sidewalks, and the general air of up-to-date-ness which has fairly earned for the town the reputation of being the very best residence town in Georgia.

This has been brought about by the spirit of progress and of civic betterment which permeates the entire body of citizens of the town and has attracted to us always the same type of citizens from other sections of the country.

Do you want to live in a live town? Then, come to Decatur. Are you looking for a town of schools and churches and homes? Then, be sure to come to Decatur.

Do you want a good location for business? By all means, you should come to Decatur. Come to see us and let us show you our town, or write to us, or phone us. We'll be glad to see you or hear from you. That is, if you are a live one. In the meanwhile, Watch Decatur Grow.

If you haven't time to write, or phone, or come, just watch this space from today, because Decatur's business men want you to know WHY Decatur is the very best residence town in Georgia.
